Structure of Lab Report:

- **Experiment No.:**
- **Name of Experiment:**
- **Reference/Method:**
- **Objective/objectives of the Test:**
- **Significance of the Test:**
- **Equipment/Apparatus used:.**
- **Test Data Sheet:**
- **Sample Calculation:**
- **Test Results:**
- **Discussion:**

Discussion:

- What does the **test result signify?**
- Can values to be **used or just for comparison?**
- **Limitations** of test results or how reliable?
- Are **assumed conditions** satisfied?
- **What is most likely** to go wrong or produce incorrect results?
